EXPERIENCE

Career break / Freelance Content Creator

OCT 2018 - PRESENT

- Operated a small business with integrated digital systems and basic accounting.
- Prepared annual profit & loss reports and managed inventory using tools (NiagaPos app and Google Sheets).
- Currently **upskilling in Spring Boot and React.js** to stay up-to-date with modern technologies.

HIA Architects Sdn Bhd, Shah Alam — *Admin / In-house Developer*

MAY 2015 - OCT 2018

- Designed and built an **internal web-based leave management system** using **Java (MVC approach)** and **PostgreSQL** for backend processing, with **Bootstrap** and **jQuery** for frontend development.
- Carried out **full SDLC responsibilities independently**: requirements, development, testing, and deployment.
- Applied **Agile** practices like task prioritization, sprint planning, and continuous iteration for improvements.
- **Manually performed unit testing** by simulating real-user flows to validate features and prevent regressions.

Standard Chartered Global Business Services Sdn Bhd (formerly Scope International (M) Sdn Bhd), Petaling Jaya — *Programmer*

OCT 2011 - AUG 2014

Assigned to Retail Banking - Front-End Lending team from Graduate Trainee Program initially and was absorbed as a full-time team member after successful completion of the program

- Developed and maintained internal banking systems using **Java (MVC architecture)** and **SQL**, focusing on feature enhancements and issue resolution within a large-scale enterprise system.
- Collaborated within an **Agile** environment, participating in sprint planning, daily stand-ups, and retrospectives while closely aligning with business requirements.
- Provided **UAT support** by identifying and resolving bugs, collecting feedback, and ensuring deployment readiness.
- Created and updated **SQL** queries and database procedures for application integration and data validation.
- Ensured code quality, documentation, and compliance with internal banking governance standards and regulatory practices.
- Worked with cross-functional teams including testers, analysts, and operations staff to maintain high system availability and performance.

Opulens SA Sdn Bhd, Damansara — *Programmer*

FEB 2011 - MAY 2011

- Contributed to development of web-based maritime applications using .NET and MSSQL
- Collaborated on short-term feature enhancements and documentation
