MOHD KHAIRIL AKUB

DATA ANALYTICS & BI PROFESSIONAL | POWER BI | POWER AUTOMATE | POWER APPS

+6013-5956432 | mhdkerel@gmail.com | LinkedIn: Mohd Khairil Akub

PROFESSIONAL PROFILE

With 7 years of experience in Quality Engineering driving process excellence and operational improvements, I am now actively transitioning into data analytics and business intelligence to expand my impact through insight-driven decision-making. Building on my foundation in quality systems and continuous improvement, I have developed expertise in Power BI, Power Automate, and Power Apps to deliver end-to-end analytics and automation solutions. I specialize in transforming raw data into actionable insights through dynamic dashboards, streamlining workflows with process automation, and designing low-code applications that enhance efficiency and transparency. Backed by a Master's in Engineering Management and strong skills in SQL, DAX, and data modeling, I bring a unique combination of domain knowledge and technical proficiency which bridging operations, data analytics, and business needs to support digital transformation and organizational growth.

CORE COMPETENCIES AND SKILLS

Competencies: Analytical Skills, Statistical Knowledge, Programming and Data Manipulation, Data Visualization, Database Management, Business Acumen

Technical Skills: Quality Assurance Quality Control, ISO 9001: 2015 & ISO 14001: 2015, Microsoft Office, 5 Core Tools, 7 QC Tools, Python Programming, Microsoft Power BI, Microsoft Power Automate, Microsoft Power Apps, Minitab Statistical Software

CERTIFICATIONS/TRAINING

- Build Solutions with Power Apps, Power Automate & SharePoint | Udemy | Sep 2025
- AI4MYFuture (AI-102) & (AI-900) | iTrain Malaysia | Jul 2025
- Excel for Data Analytics | Analyst Builder | Dec 2024
- MySQL for Data Analytics | Analyst Builder | Oct 2024
- ISO 9001 & 14001 Internal Audit | BSI Group | Nov 2023
- Microsoft Power BI | Maven Analytics | Nov 2023
- Data Science Foundation Course | 360digitmg | Jan 2023
- AIGPE Minitab Beginner Certification | Advanced Innovation Group Pro Excellent AIGPE | Jun 2023
- Digital Leadership Development | PEOPLElogy Group | Oct 2022
- Applied Data Engineering | Fusionex Academy | Oct 2022

PROJECT PORTFOLIO (**Portfolio Mohd Khairil**)

- Digital Request for Inspection Application (Power Apps, Power Automate, SharePoint)
- Digital Crew Competency Verification System (Power Apps, Power Automate, SharePoint)
- Hazard Identification Report (HIR) Tracking (Power BI)
- Digitalization of QHSE Monthly Report (Power Apps, Power Automate, SharePoint)
- QAQC Dashboard (Power BI)
- E-Nerve Centre (Power BI)
- Ops Quality Dashboard (Power BI)
- Automated NCR Reminder (Power Automate, SharePoint)
- Automated Data Storage (Power Automate, SharePoint, Microsoft Form)
- Automated COA Report Storage (Microsoft Excel & VBA)
- Centralized Digital Inspection Checklist (Microsoft Excel & VBA)

PROFESSIONAL EXPERIENCES

Assistant Manager, Quality | UZMA Berhad | Apr 2025 – Present

Achievements:

- 3rd place winner for 2025 UZMA Ai-Deation Day.

- **Business Improvement & Digitalization**
  - Lead the continuation and enhancement of the QHSE digital portal to improve efficiency, compliance, and visibility across quality, health, safety, and environmental processes.
  - Utilized Microsoft platform for the digitalization of the process and documentation resulting 80% reduction of administrative works.
- **Advanced Analytics and Quality Insights**
  - Utilized Power BI to create advanced analytics solutions that monitored key performance indicators (KPIs), driving strategic decisions and continuous improvement.
  - Developed end-to-end BI solutions:
    - Data Importing: Import data from various sources, SharePoint List & Excel.
    - Data Transformation: Cleaned and prepared raw data using Power Query for seamless integration into data models.
    - Data Modeling: Created scalable, optimized data models with relationships and calculated measures using DAX.
    - Visualization: Designed and published visually engaging dashboards tailored to business needs.

Quality Engineer | Steelcase Manufacturing (M) Sdn Bhd | June 2021 – Mar 2025

Achievements:

- Solo representative of Steelcase Malaysia & APAC region to Steelcase Reynosa, Mexico, and Steelcase Grand Rapids USA for the Technical Issue review.
- Representative of Steelcase Malaysia and APAC in the Steelcase Global Problem-Solving Competition (GPSC) Global Region.
- Winner of the Steelcase Global Problem-Solving Competition (GPSC) for Steelcase Malaysia and Asia Pacific (APAC) Region.

- **Customer Service and Quality Assurance**
  - Identified recurring defect patterns in LASER and customer complaint data, enabling targeted corrective actions that reduced complaint resolution time.
  - Built real-time dashboards to track defect percentages, empowering cross-functional teams to improve product reliability and customer satisfaction.
  - Automated defect and performance reporting, improving stakeholder visibility and cutting manual reporting effort by 60%.
  - Applied analytics-driven corrective and preventive measures, achieving a 40% reduction in defect rates in Q1 and strengthening operational excellence.
- **Advanced Analytics and Quality Insights**
  - Delivered KPI dashboards in Power BI that enabled faster, data-driven decisions and supported continuous improvement initiatives.
  - Built end-to-end BI solutions by transforming raw data, developing optimized data models with DAX, and designing interactive dashboards tailored to business needs.
  - Automated reporting workflows through Power BI integration with SharePoint and Excel, reducing reporting time by 30% and enhancing data accessibility.
- **Business Process Automation**
  - Automated NCR workflows with email notifications, approvals, and reminders, reducing delays and strengthening accountability.
  - Improved compliance by deploying automated reminders for overdue NCR actions, ensuring timely follow-ups and faster issue resolution.
  - Integrated Microsoft Forms with SharePoint and Power BI to enable real-time analytics, enhancing visibility for stakeholders.
  - Eliminated manual data entry and bottlenecks, delivering significant time savings and improved accuracy across quality processes.
- **Problem-solving and Process Improvement**
  - Identified and resolved process bottlenecks affecting throughput and quality by performing root cause analysis and designing experiments with cross-functional teams.
  - Ensured product quality met customer specifications, reducing customer complaints by 90% through effective corrective measures.
- **Quality System Coordination and Compliance**
  - Spearheaded the coordination and implementation of ISO 9001 and ISO 14001 standards, ensuring compliance with quality and environmental management systems.
  - Managed internal audit schedules and oversaw the implementation of corrective and preventive actions, maintaining a culture of quality excellence.
- **Validation and Continuous Improvement**
  - Ensured compliance with quality standards and customer requirements through rigorous process and product validations.
  - Reduced deviations by monitoring equipment and material defects, implementing targeted, data-driven corrective actions.
  - Improved long-term performance by analyzing defect trends and collaborating with cross-functional teams to implement sustainable solutions.

QA Engineer | Zeito Plastic Component Sdn Bhd | Sep 2020 – May 2021

- **Quality Management and Customer Focus**
  - Attended to customer concerns on quality issues, demonstrating a proactive approach in resolving them promptly.
  - Conducted corrective and preventive actions in response to customer failures, ensuring continuous improvement in customer satisfaction.
  - Monitored and analyzed customer complaints, addressing recurring issues to enhance overall product quality.
- **Supplier & Document Control**
  - Ensured all supplier quality targets were met to prevent supply disruptions, actively managing supplier relationships.
  - Took responsibility for evaluating, controlling, and updating documents, maintaining accuracy and compliance with established standards.
- **Operational Excellence and Compliance**
  - Controlled and managed departmental operations within Quality & Environmental Management Systems guidelines.
  - Adapted to changes and updates in new product specifications, ensuring continuous compliance with evolving standards.
- **Problem Solving and Process Stabilization**
  - Defined process problems affecting throughput or quality and conducted root cause analysis.

- Implemented effective solutions to stabilize processes, evaluating and ensuring sustained positive results.

- **Corrective Action and Monitoring**
  - Managed corrective actions for material defects, audits, and monitored equipment quality, promptly addressing deviations.

QA Engineer | KESM Test (M) Sdn Bhd | June 2018 – Aug 2020

- **Inspector Management and Quality Assurance Leadership**
  - Managed a group of 30 inspectors, overseeing daily quality control activities to meet the company's quality objectives.
  - Liaised with customers regarding quality issues, ensuring effective communication and resolution of concerns.
  - Collaborated with customer/third-party auditors on audit matters, facilitating a smooth and transparent audit process.
- **Quality System Coordination and Compliance**
  - Coordinated and implemented the Company's ISO/TS16949 and ISO 14001 standards, ensuring adherence to quality and environmental management systems.
  - Monitored the audit schedule, ensuring timely and effective implementation of corrective and preventive actions.
- **In-Process Quality Assurance**
  - Planned and executed In-Process Quality Audits (IPQA), ensuring all operations complied with established quality requirements.
  - Completed follow-up reports to address any identified non-compliance issues and promote continuous improvement.
  - Conducted regular reviews to assess the disposition of incoming lots, maintaining rigorous quality standards.
- **Quality Management and Customer Focus**
  - Conducted corrective and preventive actions in response to customer failures, ensuring continuous improvement in customer satisfaction.
  - Monitored and analyzed customer complaints, addressing recurring issues to enhance overall product quality.
- **Validation and Continuous Improvement**
  - Performed process and product validation, ensuring adherence to quality standards.
  - Managed corrective actions for material defects, audits, and monitored equipment quality, promptly addressing deviations.

QA Engineer | GWI Manufacturing Sdn Bhd | Feb 2017 – June 2018

- **Quality Assurance Leadership**
  - Guided the QA department in daily quality control, aligning with customer requirements and achieving targets.
- **Quality System Analysis**
  - Analyzed and maintained ISO-compliant quality and environmental systems, incorporating customer feedback for continuous improvement.
- **Quality Management and Customer Focus**
  - Attended to customer concerns on quality issues, demonstrating a proactive approach in resolving them promptly.
  - Conducted corrective and preventive actions in response to customer failures, ensuring continuous improvement in customer satisfaction.
  - Monitored and analyzed customer complaints, addressing recurring issues to enhance overall product quality.
- **Quality System Coordination and Compliance**
  - Coordinated and implemented the Company's ISO 9001 and ISO 14001 standards, ensuring adherence to quality and environmental management systems.
  - Monitored the audit schedule, ensuring timely and effective implementation of corrective and preventive actions.
- **Corrective Action and Monitoring**
  - Managed corrective actions for material defects, audits, and monitored equipment quality, promptly addressing deviations.
- **Product Conformance**
  - Maintained high-quality standards for finished goods, implementing proactive measures to prevent non-conformities.
- **Collaboration and Auditing**
  - Addressed non-conformance collaboratively with departments and conducted audits in manufacturing and with suppliers.
- **Safety Committee Contribution**
  - Contributed to overall safety and well-being as a member of the Safety Committee and Emergency Response Team (ERT).

EDUCATION

Universiti Teknologi Mara (UiTM) | Sep 2019 – Jun 2021
Master's Engineering Management | CGPA: 3.64

Universiti Malaya | Sep 2012 – Jun 2016
Bachelor of Science (Physics) | CGPA: 2.80
