NUR LYANA NAJLA BINTI HUKMEE

lyananajla.hukmee@gmail.com | +6018-4713211 | Shah Alam, Selangor

SUMMARY/OBJECTIVE

Personal Summary: As a recent graduate in Intelligent Systems Engineering from UiTM Shah Alam, I'm eager to apply my skills in data analysis and risk management. With a solid foundation in data extraction, visualization, and reporting, I'm excited to contribute to meaningful insights that supports faster decision-making and deliver measurable impact to the organization.

EDUCATIONAL BACKGROUND

Bachelor of Information Systems (Hons.) Intelligent Systems Engineering **2020 - 2024**

UNIVERSITI TEKNOLOGI MARA

Malaysian Matriculation Programme in Pure Science **2019 - 2020**

KOLEJ MARA KULIM

LEARNING CERTIFICATION

- Webinar in Data Analytics by CADS
- Cisco Webex Networking by Cisco
- Oracle Database Design by Oracle
- Database Programming with SQL by Oracle

WORKING EXPERIENCE

June 2025 – PRESENT | UNIQLO Management Candidate (UMC)
UNIQLO

- Monitor and analyzing sales performance by tracking daily sales vs targets, identified trends and gaps, and collaborate with team members to implement strategies that improved floor efficiency and sales outcomes.
- Optimize team productivity by assessing staff performance and task allocation effectiveness, provide feedback based on daily KPIs, and support targeted coaching to enhance operational output.
- Enhance customer experience through insights by collecting customer feedback and behavioral patterns to inform service improvements, contributing to increased satisfaction and repeat visits.

May 2024 – January 2025 | 8 months | Apprentice, Group Technology & Data (Financial Management)
CIMB Group Holdings Berhad

- Automated data extraction from Excel, developing templates for regional chargeback processes, streamlining financial workflows at Group Technology & Data under Finance Department.
- Analyzed staff capitalization processes through detailed flowcharts within the PPM system, providing critical insights to improve resource allocation and project management.
- Manage the process of requesting regional chargeback quotation and purchase requisition for system maintenance annually.

Sept 2023 – Jan 2024 | 5 months | Internship
PETRONAS Dagangan Berhad

- Conducted in-depth analysis of project delays within Petronas' Advanced Analytics department using Power BI by identifying key insights to enhance efficiency and mitigate future setbacks.
- Developed a dynamic Power BI visualization to turn complex data into easy-to-understand insights, helping teams make better decisions and stay informed.
- Managing data governance for Commercial Analytics department by utilizing Microsoft Azure to implement data masking strategies, ensuring protection of sensitive customer information.

Open

PROJECTS

Final Year Project – Mental Health Detection from Facebook Posts

- Developed text analysis model using natural language processing to predict depression, anxiety and stress from Facebook posts.
- Implemented classification algorithm using machine learning and deep learning method that includes library such as matplotlib and nltk.
- Developed a dashboard using Power BI for data visualization and user interactive platforms.

Elementary School Registration Database System Prototype

- Developed a digital registration system for easier access and retrieving student data.
- Data model is to store information of students is designed in Oracle APEX using MySQL.
- User interface of the registration system is designed by using Microsoft Access.

Data Analytics – Project Delays for Commercial Analytics Department

- Data cleaning and enhancement using Microsoft Excel and Python.
- Developed a dashboard using Power BI for data visualization and user interactive platforms.
- Analyzed project delays and the cause of its delays for each team and apply risk mitigation strategies.

INVOLVEMENTS AND ACHIEVEMENTS

Special Committee SULAM ICT in International Collaboration (Malaysia and India)

- Appointed as a treasurer of Special Committee to collect and manage financial to conduct SULAM event
- Develop excellent communication skills during discussion with internal and external stakeholders.

SKILLS

SKILLS & EXPERIENCE

- **Creativity**: Videography, photography, Adobe Animate, Adobe Photoshop and illustrator
- **Communication**: Public speaking and presentation
- **Computer Skills**: Microsoft Words, PowerPoint, Excel, Google Suite, Access, Power BI, Rapid Miner, MATLAB, Tableau, Arduino IDE, Oracle, Weka, R Studio, Big Data and MongoDB
- **Computer language skills :** MYSQL, Python, R, C++, C, PHP and Java

LANGUANGE

- **Language Proficiency**: Malay, English (Proficiency), French (Basic)
